Mid-year update: Clovis shows financial growth in challenging economy

BETHESDA, MD, August 1, 2009 – Clovis Group, LLC, the leading staffing and recruiting firm in the Greater Washington region, announced that the company's revenues grew 25 percent, from the first half of 2009 compared with the same period in 2008. Clovis' financial strength provides the ability to expand from its core practice areas of Accounting and Finance and Information Technology solutions into providing turn-key Workforce management solutions.

"Overall it has not been easy to continue to grow in this down economy, but with an emphasis on internal training, understanding our clients' business needs and a disciplined focus around the drivers of our operating levers we are extremely pleased that we have been able to exceed our financial growth for the first half of 2009," said Richard Mazelsky, President and COO. "With the ability to continually meet our financial milestones throughout 2009 we will continue to invest in the expansion of our sales force by 200 percent. We have already started adding key players to our elite sales staff and the goal is to have all new hires made by the end of the third quarter. With the growth of the Bethesda office, our long term goal will be to expand into other markets within the Greater Washington region by 2010."

Clovis' staffing and recruiting services are used by a diverse customer base of both commercial and government industries and specify within these vertical market segments: Accounting and Finance, Information Technology and a new addition of Workforce Management. The expansion into Workforce Management solutions was announced in April 2009.

"We feel that Workforce Management is a needed solution for both commercial and government clients," commented Greg Diamond, Managing Partner. "At the beginning of 2009 we began to really fine tune our service offerings around Workforce Management and now we feel very confident that our services will be a fresh offering in the staffing and recruiting industry."

About Clovis

Founded in 2000, Clovis, a Bethesda, Maryland based company, offers both commercial and government human capital solutions within three core practice areas: Accounting and Finance, Information Technology and Workforce Management. Clovis, a three-time Inc. 500 company, is a service solutions firm focused on "win-win" solutions for both clients and candidates. Our interview-to-hire ratio is 3 to 1, which is less than the national average.
